## CANDY HIS INTRODUCTION.

Officer McArthur Could Not Speak Polish—Knew How to Lure Lost Child Home.

Mrs. John Kaloski, resident at 44 Stone row, rushed into police headquarters Wednesday afternoon with tears streaming down her cheeks. Through an interpreter she made it known to Chief R. H. Richmond that her baby, 21-2 years old, had wandered away from home about 11 o'clock in the forenoon and she could not get any trace of the little one.

The chief obtained a description of the tot wearing apparel and sent Officer Allan McArthur out in search of the child. The mother was afraid the baby had wandered on to the railroad tracks or down by the river. She pleaded to have her husband notified, and the chief sent word to the Rossi velvet mill and had John Kaloski go home to his wife, as she needed his comfort in her distress.

The mother was escorted home, and an investigation was commenced by the police. Every street west of Walnut was carefully searched and no clue was obtained. Officer McArthur later found the tot near the footbridge on Railroad street, wandering about entirely unaided of the commotion that it had caused. Officer McArthur could not speak Polish, but he knew how to reach the child's heart, and slipping into a candy store purchased a big stick of candy and gave it to the wanderer. Then he escorted the little lady to police headquarters and later took her home to her anxious mother. After seeing the child safe in her mother's arms the officer returned to his duty of protecting the city's streets.

## Roller Polo This Winter.

Roller polo, is to be played in this city this season. Manager August Johnson of the skating rink stated Wednesday that he intended to organize a shop league and play a regular schedule of games at the Valley street armory. The games will probably be played on Wednesday and Friday evenings for the present, and later, when the armory is available for more nights, other evenings may be utilized. Mr. Johnson states that no admission will be charged for the opening game, so as to get people interested and give them an idea of what roller polo is. At present there is a goodly number of young men who are good skaters in the city, and many have signified their desire to play polo. Special polo skates have been ordered and are expected at any time now. The first preliminary practice was held Wednesday evening, and another tryout of the prospective players will be held Friday evening. It is not at present known just how many teams will comprise the proposed league. Teams from Bridgeport and Hartford and other cities will be brought here for an occasional game to be interspersed between the league games.

## I. W. W. ORGANIZER.

Gives Sensible Advice to Workers Who Would Strike—Persuades Them to Give Up Such Plan.

A meeting of the people employed in the manufacturing department of the American Thread company was held Tuesday evening in the Polish hall on Lower Main street, to consider the matter of going on another strike, and because they were not satisfied, but because the company in many instances had refused employment to people applying for work, those who had gone out on strike the last time. A number favored going out on strike, especially friends of those who had not been re-engaged, but many more favored giving the company a chance to show their good faith by employing the strikers as fast as they found need for them.

The matter was given a long discussion and speeches were made on both sides. I. W. W. was present and advised the people not to strike, for the present at least. He said that without doubt the company would hire all the strikers back just as soon as they were out of the hall. It was finally decided to take a vote, which resulted by a large majority in favor of refraining from striking at present.

The police were the guests at the usual Wednesday morning tea as there was no sign of any indication of impending disturbance the force did not report for noon duty at the various entrances to the mills.
